SUMMARY

Result-driven Frontend Developer with 3+ years experience crafting web applications and collaborating with cross-functional teams to bring user-centered designs to life. Passionate about utilizing my technical abilities and experience to implement innovative solutions and deliver software that support business growth and operational success..

EXPERIENCE

Software Engineer

Agromall

February 2024 - Present

- Collaborated with cross-functional teams to translate wire-frames and prototypes into responsive and interactive web pages.
- Integrated and connected applications to APIs and payment gateways, facilitating seamless user transactions and real-time updates.
- Debugging efforts to identify and resolve performance issues, fixed cross-browser compatibility issues, increasing user satisfaction across Chrome, Firefox, and Safari.
- Optimized existing website to be responsiveness, enhancing accessibility on various mobile screen sizes.
- Assisted in the deployment to production environments, ensuring smooth transition and minimal downtime.

Software Engineer

Datannovate

September 2022 – August 2023

- Converted mock-ups to responsive and accessible desktop application.
- Built client-side validation mechanisms to ensure the accuracy of user inputs, improved the quality of collected data.
- Integrated external APIs to handle real-time data submission and retrieval.
- Fixed bugs and conducted usability testing to ensure user-friendliness.
- Collaborated with team to deploy and monitor post-deployment performance and addressed any arising issues promptly.

Networking Engineer (Intern)

Sabi Networks

November 2021 - May 2022

- Helped resolve connectivity issues and optimize network configurations for residential and business clients, ensuring minimal service interruptions.
- Troubleshooted on networking equipment to identify connection issues and applied necessary fixes to ensure stable and efficient operation of the ISPs infrastructure.

EDUCATION

Bachelor of Engineering in Computer Engineering

University of Ilorin • Ilorin, Kwara State, Nigeria • Second Class Honors (Upper Division) • 2023

SKILLS/INTEREST

Tools: React.JS, Next.JS, JavaScript, Typescript, HTML, CSS, SCSS, Material UI, ShadCn UI, Tailwind, Bootstrap, Git and Git-hub.
